Tub for two persons Yin Yang.

YIN YANG with on-site wooden cladding

Technology for the senses. TRAUTWEIN
Tub for two persons Yin Yang.

WELLNESS FOR COUPLES.
A couple’s time to spend together becomes more and more precious. Common treatments are thus in great demand – the tendency for couple treatments is proving this very clearly. However, not only couples but also close friends, or a mother & daughter could enjoy spending this pleasant time together. For this purpose, the Yin Yang for two persons is the optimal tub.

TOGETHER, YET INDIVIDUALLY.
Each bather has her/his own bathing water. Temperature, bathing additives and the colour of the light can be chosen individually. Also in terms of hygiene, the separation of the bathing water is an optimal solution. If a single person books a bath, only half of the water quantity is needed.
Feeling the sound in one’s body.

The Yin Yang couple tub offers the guests a luxurious bath with tingly soundwave massage and vitalising colour light. Tender vibrancies are transmitted onto the water in the tub, that is to say the guests are bathing directly in the loudspeaker itself – this way, the soundwaves can be heard and sensed in every fibre of the bather’s body. An unbelievable feeling!

During one bath, the bathing guests experience two intense vitalising energies that enhance their well-being and promote their relaxation. This is an extraordinary bathing event which distinctly contrasts with the bath at home and even draws men into the Spa ...

To tall bathers, the tub offers a relaxing ergonomic set-up and optimal bathing comfort. An integrated tub shortener provides security and makes sure that also shorter persons can enjoy the bath.

Dimensions Yin Yang

SOUNDWAVE MASSAGE & COLOUR LIGHT.
A particularly profound experience of well-being is created by the integrated soundwave massage. The bathing guests are bathing directly in the loudspeaker, enjoying the excellent sound quality and feeling the musical vibrations in every fibre of their body.

DESIGN.
The Yin Yang couple bath is delivered with a special frame for tiling, which can be adapted on site and be cladded for ex. with ceramics or wood. In this manner, the couple tub can be arranged individually and be adapted perfectly to the premises in the Wellness area.
Extraordinary and exquisite.

YIN YANG TUB FOR TWO PERSONS.
This new bath tub offers in the Wellness area the possibility of bathing together, yet separately. The form of the tub is reminiscent of the Chinese symbol Yin and Yang, which expresses the constant change of the opposites. The tub edge is drawn down in the middle so that the common bathing experience can be intensified.

HYGIENICALLY SMOOTH SURFACES.
Four integrated high-performance colour spots per tub body create an atmospheric colour light on the bathing water – you can have alternating rainbow colours all over the water. The colour light spots are incorporated hygienically smooth and seamless in the tub body. The licensed couple tub – made of one jointless piece with two bathing hollows – meets all hygienic requirements.

SECURITY AND COMFORT.
In public areas, importance should be attached to safety. Two tub handles are optionally available for the Yin Yang couple tub, which should provide additional security. The tub shorteners moulded into the tub make sure that also shorter persons can enjoy a relaxing bath without having to bother about safety. Taller bathing guests will certainly appreciate the generous depth of the tub.
The small attachable deposit table of acrylic material with the Yin Yang symbol is a useful and nice accessory.
